Re: Addendum 1, Changes to Scope of Work

The following change applies to all sections of the RFP:

Upon further review, the BMV has determined there is no legal requirement that the DSP be offered in any language other than English. Therefore, a Spanish version is not required in this RFP for the Basic Driver Safety Program (BDSP) or any optional curriculum. If a respondent wishes to provide a Spanish curriculum it will be considered an optional curriculum. The BMV may award additional points for a Spanish version of the BDSP. Respondents who wish to offer a non-English language DSP should include that in their response as an optional curriculum. Respondents who wish to offer another language as an optional curriculum should provide a statement of commitment in their response that they will provide a specific language upon contract award.

The following change applies to these sections of the RFP:
